

Product Discontinuation Notice

Distributor: sales@norrscope.com

July 2025

Dear Valued Customer,

3M™ Scott™ Fire & Safety would like to inform you of the immediate discontinuation of the following spare parts for the previously EN-approved 3M™ Scott™ Flite Supplied-Air Respirator, which was discontinued in 2018. Despite our every effort to provide components for as long as possible; due to the obsolescence of certain components from our supplier, we are no longer able to continue supplying these spare parts.

Please note that this does not impact the current EN-approved 3M™ Scott™ Flite COV Supplied-Air Respirator model. We encourage you to transition to the 3M™ Scott™ Flite COV Supplied-Air Respirator model, which remains fully supported and available. This model offers continued reliability and access to spare parts to meet your needs.

Effective immediately, the following products and part numbers are no longer available for ordering. Any open orders that cannot be fulfilled will be cancelled.
