For 406 MHz Beacons

## Sea Shelter™<sub>3</sub> Category I Bracket

This fully enclosed, robust bracket provides EPIRB protection in the harshest conditions, and automatically deploys your EPIRB should your vessel sink. The quick-release latch allows for fast, easy top cover removal, even with gloves on. Ideal for use in fishing, petrochemical, freighter, salvage or any other harsh marine applications. The Sea Shelter™<sub>3</sub> also features a streamlined, aesthetic design perfect for yachts or racing vessels.

- Innovative, quick-change hydrostatic release mechanism
- One-way mounting eliminates the possibility of installing EPIRB backwards
- Integral de-activation magnet prevents the EPIRB from transmitting until deployed
- Deploys EPIRB when submerged in water at a depth between 1.5 – 4 m

## HydroFix™ Hydrostatic Release Unit for Category I EPIRB

A patented rod system does not rely on a battery, blade or pyrotechnic device to release the beacon. This advantage allows for a quick, seamless and reliable release in an emergency. Note that this is a date-stamped product and must be replaced every 2 years from the date of installation or 4 years from the date of manufacture.

- Allows release of a beacon from a Category I bracket when submerged in water between 1.5 – 4 m
- Easily replaceable
- 100% factory tested

## LowPro™<sub>3</sub> Category II Bracket

This low-profile bracket features an incredibly small footprint for bulkhead mounting. Made of high-density, UV-stabilized polyethylene, the LowPro™<sub>3</sub> will securely store your GlobalFix™ iPRO/PRO even after years of abuse.

- One-way mounting eliminates the possibility of installing EPIRB backwards
- Integral de-activation magnet prevents the EPIRB from transmitting until deployed
- Two part design allows de-activation magnet to unclip from bracket for storage on the EPIRB in a ditch bag to prevent false alarms

## SPECIFICATIONS

Product Number	9501
Fits	GlobalFix™ iPRO (P/N 2846.0), GlobalFix™ PRO (P/N 2842)
Size	36.5 x 15.0 x 12.0 cm
Weight	1.01 kg

P/N 9501

Product Number	9490
Fits	Open Face,™ Sea Shelter,™ Sea Shelter™ <sub>2</sub> and Sea Shelter™ <sub>3</sub> brackets
Size	6.3 x 8.6 x 5.0 cm
Weight	93.6 g

P/N 9490

Product Number	9502
Fits	GlobalFix™ iPRO (P/N 2848.0), GlobalFix™ PRO (P/N 2844)
Size	12.17 x 15.34 x 8.79 cm
Weight	144 g

P/N 9502

Compatible with Current ACR EPIRBs
