

Series 5000 moulded single-use masks

**Honeywell**

MAXIMUM PROTECTION FOR MINIMUM EFFORT!

**Because  
your protection counts!**

# Maximum protection for minimum effort

Located in over 120 countries, Honeywell Safety Products (HSP) is world leader in personal protective equipment. In all the developments made by HSP, special attention is paid to combining maximum respiratory protection and optimal comfort, thus reducing the user's efforts to carry out their work in complete safety.

Its Research & Development Centre, set up in France, is renowned the world over as an excellence centre due to its dedicated quality control laboratory and cutting-edge equipment.

The fruit of a partnership with mask end-users, we have brought our Series 5000 moulded mask range forward so that it can provide you with all the protection and comfort you deserve!

## New items of the Series 5000 range

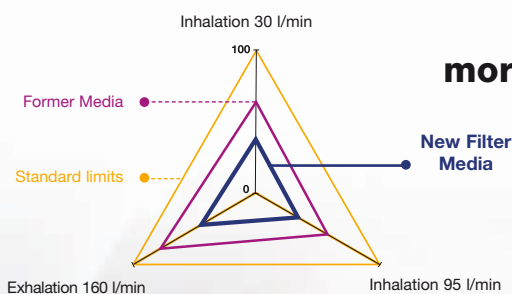

### For maximum protection

#### 1 NEW OUTER LAYER

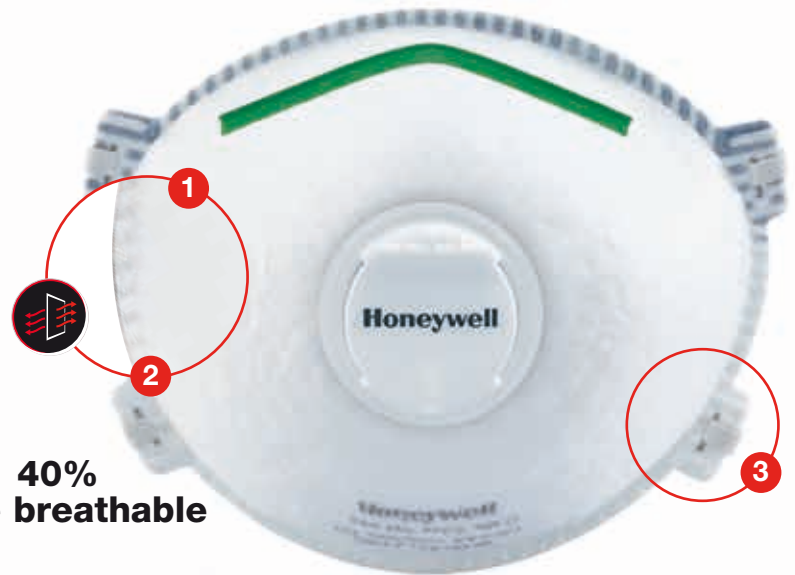

A reinforced and softer outer layer to improve the mask's fit and the user's comfort.

#### 2 NEW ULTRA-HIGH PERFORMANCE FILTER MEDIA

Its new formula provides added breathability while maintaining maximum filter performance.

**40%  
more breathable**

#### 3 NEW ELASTIC BANDS

- New white and ultra-flexible elastic and resistant bands for a better face seal and added comfort
- Can stretch up to 500% without breaking

#### 4 ADJUSTABLE NOSE PIECE

- Resistant nose piece that ensures a perfect seal in time for maximum protection
- Rapid identification of the level of protection using a colour code

#### 5 HIGH PERFORMANCE VALVE

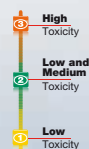

- Its exclusive inclining design enables the mask being cooler and drier

#### 6 FASTENING SYSTEM

- Its softer and easy-to-adjust woven ribbon texture ensures a perfect seal and comfort.
- Available on the Premium and Speciality models:  
5221 - 5321 -5251

FFP Classification

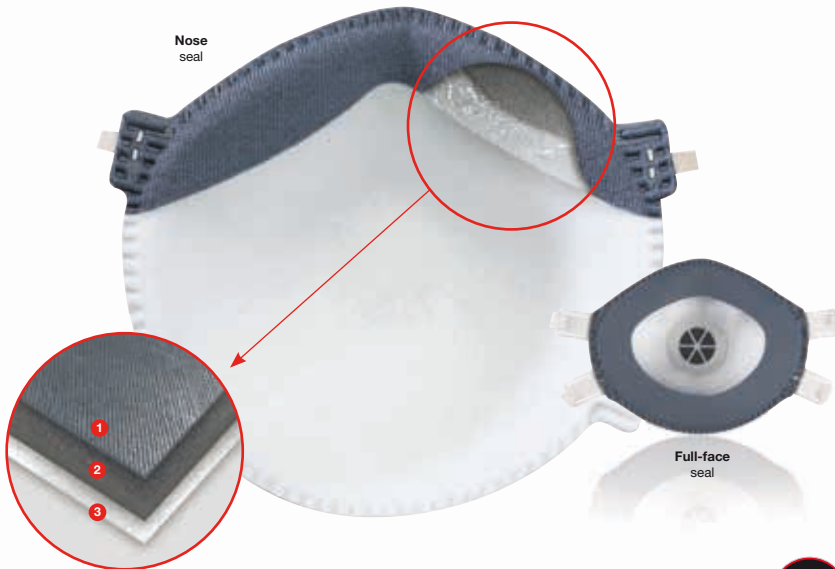

# Outstanding comfort

## For minimal effort

### THE WILLTECH™ SEAL

- Hypoallergenic, and perspiration-free, it provides the user with greater comfort.
- Made up of three layers (polyester fabric, polyurethane foam, polyethylene film), it enables a soft contact on the skin, prevents any risk of irritation by absorbing perspiration, and offers a perfect seal.

#### ADVANTAGES OF THE 3-LAYER WILLTECH™ SEAL TECHNOLOGY

- 1 Polyester fabric = **Softness**
- 2 Polyurethane foam = **Absorbs humidity**
- 3 Polyethylene film = **Seal**

### LARGE INNER VOLUME

- For greater ease of movement
- Ergonomic, soft and lightweight (10 to 28g), to reduce user fatigue to the full

## Range | 5000 series

| Premium | Speciality | Comfort

### COMFORT RANGE

- The best compromise in terms of performance and comfort for standard working conditions
- Twin-stapled outside of the filtering area, white, highly flexible and resistant elastic bands fastened far from the filter media so as to prevent any possible leakage

### PREMIUM RANGE

- Ergonomic design for maximum comfort and an optimal fit
- Ideal for demanding environments
- The 5221 & 5321 masks include a Willtech™ seal and adjustable braids

### SPECIALITY RANGE

Designed specially to protect against odours due to organic and acid vapours

More ecological-friendly and hypoallergenic:

All our models meet the following criteria:
