

SÖLL VR650 GLIDELoc SYSTEM

The Söll GlideLoc fall arresters VR600 are designed to allow the easiest climbing for every user, whatever the experience or the climbing style in combination with Söll GlideLoc vertical guide rail.

REFERENCE:

FPH_VR650

MATERIAL:

Aluminium, stainless-steel and polymer construction, providing exceptional corrosion resistance.

Stainless steel shock absorber to increase product life and reduce cost of ownership when compared with textile absorbing elements.

MAIN FUNCTIONS:

- Effortless climbing experience
- Lightweight aluminum alloy housing
- Triple-action, self-locking safety carabiner
- Visual fall indicator to reveal whether the shock absorber has been deployed
- Compatible with all Söll GlideLoc ladders and guide rails installed after 1982's
- Anti-Panic Feature: Independent and automatic fall detection mechanism with shuttle blocking.

TECHNICAL CHARACTERISTICS			
Breaking strength	>15 kN	Weight	1,14 kg
Operating temperature	-40°C to +70°C	Length	118 mm
Min. user weight	50 kg	Width	64 mm
Max. user weight	140 kg	Height	116 mm (225 mm with carabiner)
Country of origin	Slovakia		

STANDARDS AND MARKINGS
EN 353-1:2014+A1:2017
ANSI Z359.16-2016
CSA Z259.2.4-15
