

Technical Specifications

Söll Vi-Go Guided type fall arrester

Description:

Guided type fall arrester with self-locking function

Reference:

- 27826 / 1034574

Application:

- To be connected to the sternal anchorage point of the full body harness
- Ergonomic design with simple handling
- Single-hand operation possible
- Dual locking mechanism for extra safety
- Integrated shock absorber and fall indicator
- ANSI automatic safety karabiner

Material:

- Stainless steel 316
- Aluminium
- Polyamide

Usage:

- Compatible with 8mm

Technical characteristics:

- Operating temperature: -40 to +60°C
- Standard: EN 353-1:2014
- Dimensions: 102 x 75,2 x 54,5 mm
- Weight: 1,2 kg

Quality control:

- EN ISO 9001 certified
- Individual control
- Serial number identification

Patents:

- International Patent
